SUMMARY

Data analyst with experience in delivering enterprise BI solutions in the healthcare staffing sector. Expert in DAX, Power Query (M), advanced SQL, ETL pipelines and creating interactive dashboards using SQL, Python, and Power BI. Achieved a 95% drop in turnaround time through Excel-to-Power BI migration. Skilled at translating business requirements into scalable, data-driven dashboards and data warehouse solutions

TECHNICAL SKILLS

Programming & Query Languages: SQL (Joins, CTEs, Window Functions, Stored Procedures, Query Optimization), Python (Pandas, NumPy, Matplotlib, Plotly, Streamlit)

Data Visualization & BI Tools: Power BI (DAX, Data Modeling), BOARD BI, Tableau, Microsoft Excel (Power Query, Pivot Tables)

Data Engineering & Warehousing: ETL Pipeline Development, Star Schema Design, Dimensional Modeling, Data Transformation (dbt), Data Lake Fundamentals

Cloud & Data Platforms: AWS (S3, Glue, Athena, IAM)

Databases: Oracle SQL, MySQL, PostgreSQL, SQL Server

Analytics & Business Skills: Exploratory Data Analysis (EDA), KPI Design, Variance Analysis, Forecasting, Customer Segmentation, Trend Analysis, Business Performance Reporting

Tools & Platforms: Git, GitHub, REST APIs, Jupyter Notebook, VS Code, Agile, Scrum

EXPERIENCE

Associate Software Engineer (BI & Analytics Developer)

Sept 2023 – Present

Tech Mahindra

Pune, India

- **Project: Cerner Healthcare | Oct 2024 – Present**

- Designed and deployed 13+ interactive Power BI dashboards for healthcare KPIs, staffing analytics, and financial reporting, enabling data-driven decision-making across cross-functional teams.
- Led Excel-to-Power BI migration, reducing report generation time from 2 hours to 10 minutes (95% improvement) and improving reporting accuracy.
- Developed and optimized complex SQL queries, stored procedures, and views to handle large-scale datasets, improving data performance and reliability.
- Built advanced DAX measures and calculated columns for KPI tracking, trend analysis, and financial insights.
- Implemented Row-Level Security (RLS) to enforce role-based access across datasets.
- Designed Star and Snowflake schema data models, improving dashboard scalability and performance.
- Managed Power BI Service operations, including publishing reports, workspace management, and scheduled data refresh.
- Collaborated with stakeholders to gather requirements and deliver BI solutions using Agile methodology.

Skills: SQL, Power BI, DAX, Data Modeling, RLS, KPI Development, Stakeholder Management

- **Project: Enterprise Application Development (ASP.NET Core & Oracle DB) | Sept 2023 – Oct 2024**

- Developed and optimized complex SQL queries and stored procedures in Oracle Database for efficient backend data processing and reporting; built and integrated RESTful APIs using FastAPI and Oracle Database for a scalable learning management system
- Designed and developed an end-to-end ASP.NET Core MVC application, implementing robust data modeling, database schema design, and data flow architecture across application and database layers

PROJECTS

E-Commerce Revenue & Demand Intelligence System | [GitHub](#)

Dec 2025

- **Tools:** MySQL, Python (Pandas, SQLAlchemy), Power BI, DAX, Star Schema, ETL
- Designed a star schema data model in MySQL with optimized SQL analytical views for revenue, return risk, and CLV reporting across 7 product categories; built end-to-end ETL pipeline with data validation
- Developed executive Power BI dashboards with DAX and time-intelligence functions tracking \$73M revenue and 100K orders; identified Fashion return rate (12.2%) as 2× company average, flagged as pricing risk
- Performed customer segmentation via CLV analysis, revealing top 4% of customers generate disproportionate revenue, enabling targeted retention strategy

Hospitality Revenue & Performance Dashboard | [GitHub](#)

Nov 2025

- **Tools:** Power BI, DAX, Power Query
- Built an interactive Power BI dashboard tracking \$1.69Bn in hotel revenue across 25 properties and 4 cities using industry KPIs: RevPAR, ADR, Occupancy %, and Realisation %
- Identified weekend vs weekday RevPAR gap (\$7,972 vs \$7,083) and analysed booking platform performance across 7 channels to support dynamic pricing and channel mix decisions

EDUCATION

Bachelor of Engineering – Electronics & Telecommunications

2019 – 2023

Savitribai Phule Pune University
